98 LET'S CREATE TOGETHER

EVERY GREAT SPACE BEGINS WITH A STORY.

Before colour, there is material.

Before texture, there is nature.

Before every remarkable space, there is a vision.

At **Terra**, we bring together natural inspiration, Italian craftsmanship, and regional expertise to create surfaces with depth, character, and timeless beauty.

Because a wall is never just a wall.

It is where architecture finds its final expression.

A LETTER FROM **TERRA**

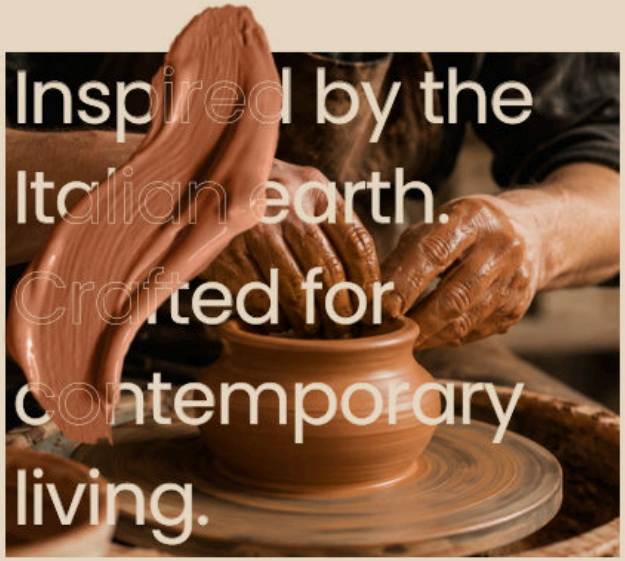

At **Terra**, we believe exceptional spaces are shaped by more than materials.

They are shaped by vision, craftsmanship, and attention to detail.

Our purpose is to bring together authentic decorative finishes, regional expertise, and a passion for design—helping architects, designers, and clients turn ideas into surfaces with character.

This book is an invitation to explore our world of texture, colour, material, and craft.

Welcome to Terra.

Everything begins with Earth.

Before architecture, there was nature.

Before colors were selected, the earth had already created its own palette.

Before textures were designed, wind, water, and time had sculpted every surface with patience.
The warmth of clay.
The elegance of limestone.
The strength of marble.
The softness of lime.

For millions of years, these natural materials have shaped landscapes, inspired civilizations, and become the foundation of timeless architecture.

At **Terra**, we don't see them simply as materials.

We see them as stories waiting to become part of a space.

Every decorative finish begins where nature began with Earth.

Terra is the Italian word for Earth.

A simple word that carries profound meaning.

It represents the origin of every material, the foundation of architecture, and the source of the colors, textures, and minerals that have inspired generations of Italian artisans.

From the limestone of Tuscany to the rich terracotta soils of central Italy, the earth has always been the starting point of timeless craftsmanship.

This philosophy became the inspiration behind our name.

Because every finish begins with the same element.

Earth

A NEW NAME.
BUILT ON PROVEN EXPERIENCE.

Terra is a new chapter built on the experience of two established regional companies.

ASFY DECORATION EST
مؤسسة اسفي للديكور

ASFY — UAE

Bringing experience in gypsum works and interior solutions within the UAE.

ROME GLOBAL
روما العولمية

Rome Global — Saudi Arabia

Bringing decades of experience in decorativ finishes, Italian craftsmanship, and premium surface solutions.

Terra
Italian Premium Coatings

Together, these strengths come together in **Terra**—created to deliver a new generation of decorative finishing solutions to the UAE.

A new company. A foundation built through experience.

TWO WORLDS.
ONE VISION.

Italian soul.
Regional understanding.

Terra brings together two worlds.

The artistry and material heritage of Italian decorative finishes, combined with a deep understanding of the UAE and Gulf market.

This balance allows us to approach every project with both creative sensitivity and practical expertise.

Italian in inspiration.

Regional in understanding.

Terra in expression.

OUR MATERIAL PARTNERS

Selected expertise. One complete surface offering.

Terra brings together selected international manufacturers, each contributing a distinct expertise in decorative and architectural finishes.

From traditional mineral surfaces and contemporary decorative coatings to advanced material technologies, our portfolio allows designers and architects to explore a wider language of texture, colour and material

MADE IN ITALY

OUR MATERIAL PARTNERS

Different expertise. One material world.

Our partners bring together different expressions of Italian surface design — from traditional lime and marble craftsmanship to decorative coatings, colour technology, and contemporary material innovation.

STUCCO ITALIANO — ITALY
Mineral & Lime Finishes
Founded in 1999 in Italy's Veneto region, Stucco Italiano specialises in mineral decorative finishes for walls and floors. Its collections combine traditional materials such as lime and marble with Italian craftsmanship, ranging from Venetian plaster and Marmorino to textured finishes and seamless flooring. The Terra Book

LOGGIA — ITALY
Decorative & Innovative Surfaces
Loggia combines colour, material research, and technology across decorative walls and floors. Its portfolio extends from lime and material coatings to microcement, stone and concrete effects, metallic surfaces, and advanced three-dimensional decorative systems. The Terra Book

SABER — ITALY
Decorative & Technical Coatings
Saber develops and manufactures Italian coating systems that combine research, design, and production. Its expertise includes premium decorative interior finishes, architectural coatings, and specialised technical solutions focused on aesthetics, protection, and performance. The Terra Book

COLORIFICIO VENETO — ITALY
Lime & Decorative Finishes
Colorificio Veneto combines traditional decorative materials with contemporary coating technology. Its expertise spans lime-based finishes, Marmorino, Travertino, mineral coatings, and decorative paints, creating a versatile language of texture, colour, and material character.

LOGGIA

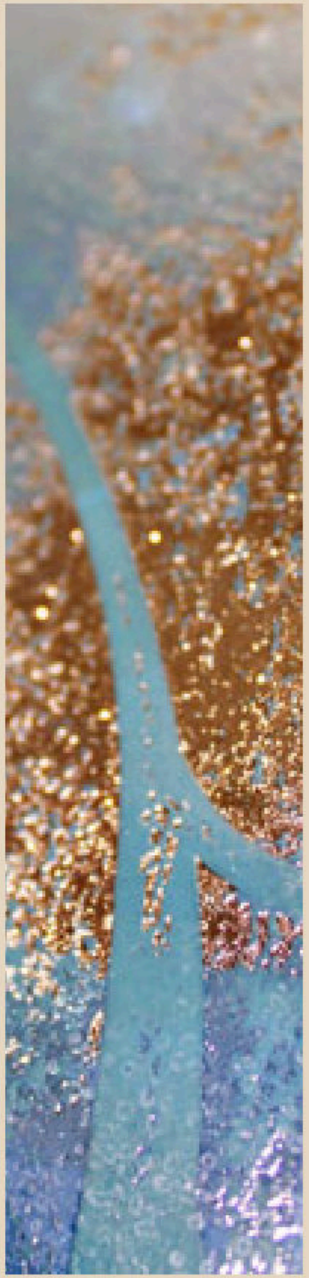

Colour. Matter. Innovation.

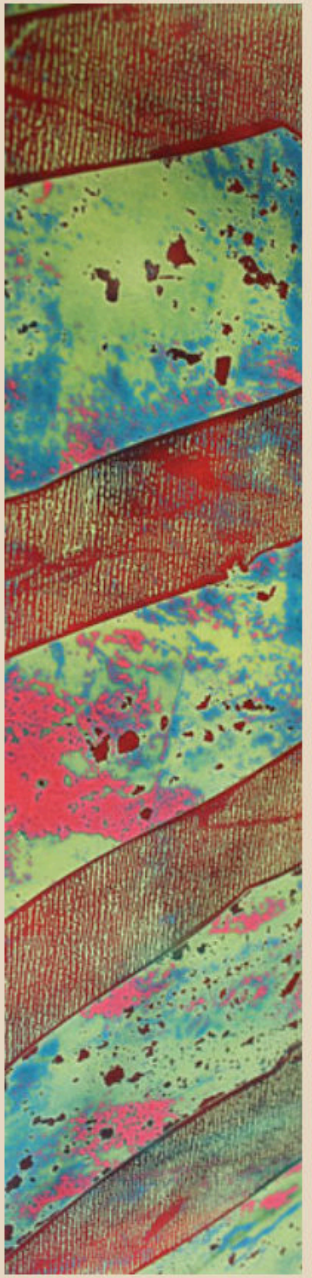

With decades of experience in the Italian coatings industry, Loggia combines colour, material research and technology across decorative walls and floors.

Its extensive portfolio ranges from lime and material coatings to microcement, stone and concrete effects, metallic surfaces and advanced three-dimensional systems such as Plasma 3D.

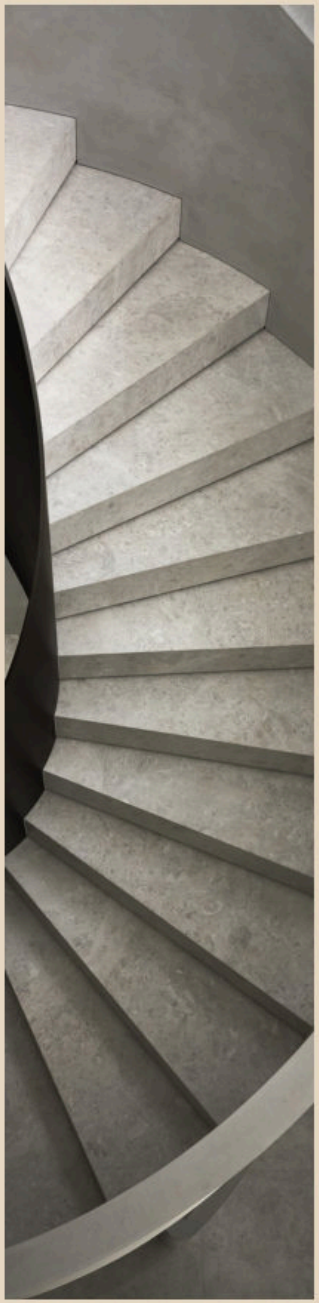

COLOUR × TEXTURE × TECHNOLOGY

STUCCO ITALIANO

Italian craftsmanship, shaped by nature.

STUCCO
ITALIANO
DECORATIVE FINISHES

Founded in 1999 by master artisan Giovanni Polistena in Italy's Veneto region, Stucco Italiano specialises in mineral decorative finishes for walls and floors.

Its collection combines traditional materials such as lime and marble with Italian craftsmanship, natural ingredients and contemporary performance — from Venetian plaster and Marmorino to textured finishes and seamless flooring

MINERAL × NATURAL × CRAFTED IN ITALY

SABER

Italian colour and coating technology.

Saber develops and manufactures coating systems in Italy, combining advanced chemical research with Made in Italy design and production.

Its expertise spans premium decorative interior finishes, architectural coatings and specialised technical solutions — bringing together aesthetics, protection and performance.

COLOUR × PERFORMANCE × MADE IN ITALY

COLORIFICIO VENETO

Rooted in Italian craftsmanship, Colorificio Veneto brings together traditional decorative materials and contemporary coating technology.

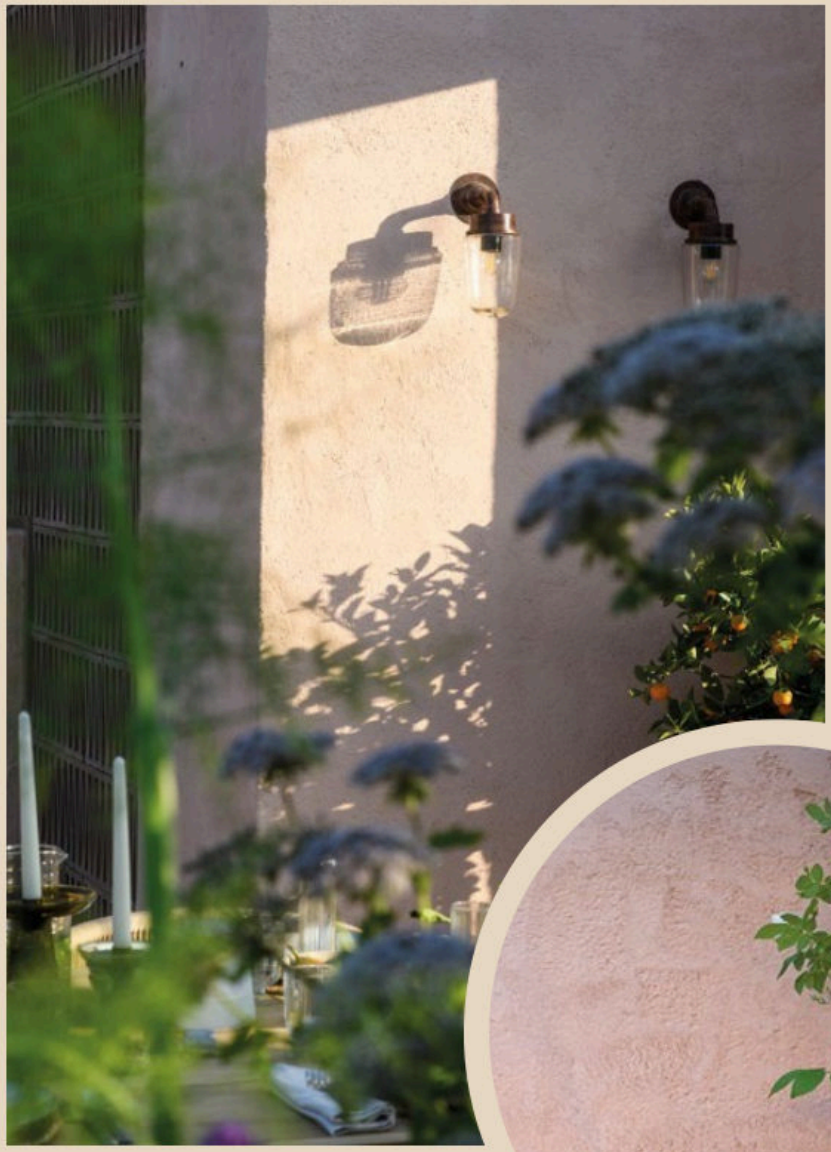

Its expertise spans lime-based finishes, Marmorino, Travertino, mineral coatings and decorative paints — combining artisanal techniques with modern formulations, research and a strong attention to material quality.

From timeless mineral surfaces to contemporary decorative effects, its collections offer designers a versatile language of texture, colour and character.

COLORIFICIO VENETO

TRADITION. MATERIAL. EVOLUTION.

WHERE ITALIAN CRAFT **MEETS LOCAL EXPERTISE**

FROM MATERIAL TO MASTERPIECE.

Exceptional materials are only the beginning.

Terra brings together Italian decorative finishes, regional expertise, and professional craftsmanship to support every project from concept to completion.

From material selection and sampling to application and quality control, we help turn design ideas into distinctive surfaces.

One vision. One partner. One complete experience.

Green Building Council Italia

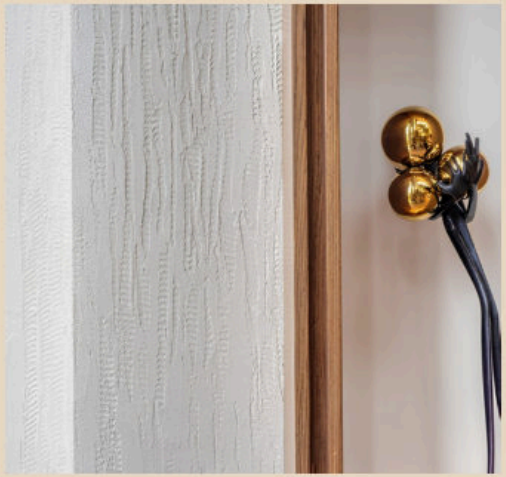

OUR PHILOSOPHY

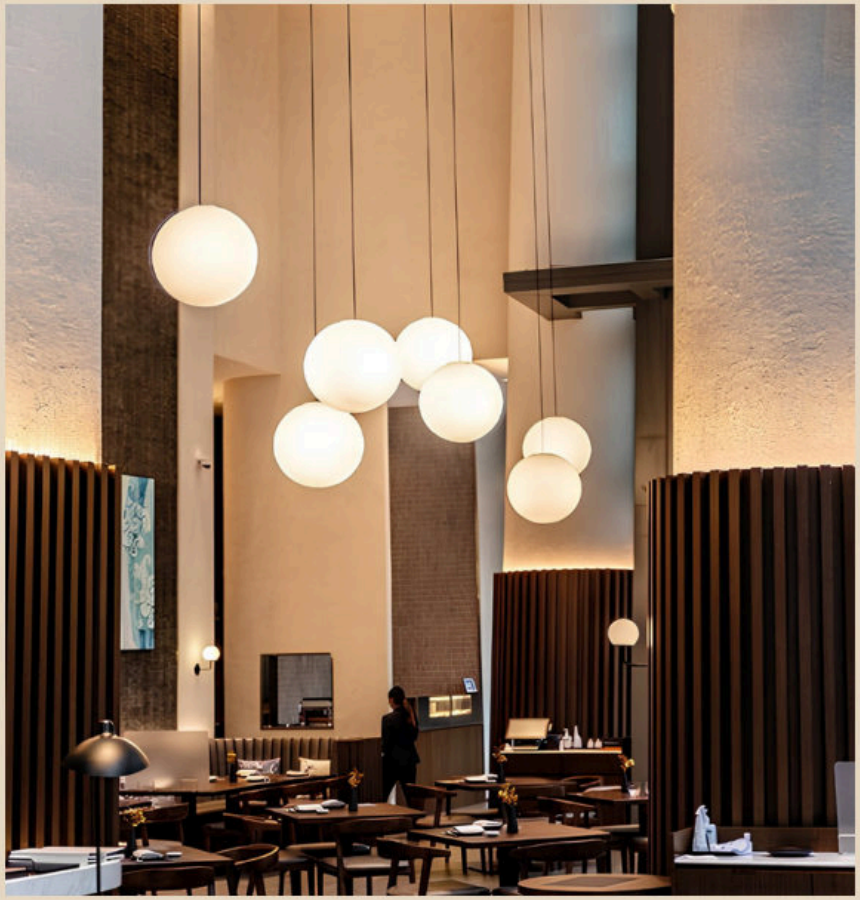

SURFACES WITH CHARACTER.

At Terra, we believe a surface should feel as natural as the space around it.
Inspired by nature, shaped by material, refined through craft, and created to complement architecture.
We embrace texture, depth, and natural variation—because true beauty is never perfectly repeated.

Every surface should have its own character.

SHAPING THE FUTURE OF SURFACES.

Travertino White
Walls and columns

OUR VISION

To become a trusted reference for premium decorative finishes in the UAE, where Italian craftsmanship, material innovation, and regional expertise come together.

OUR MISSION

To help architects, designers, and clients transform their ideas into distinctive spaces through authentic materials, expert guidance, and exceptional craftsmanship.

AUTHENTIC IN MATERIAL.
PRECISE IN CRAFT.
PURPOSEFUL IN DESIGN.

OUR VALUES

What define TERRA.

01 — AUTHENTICITY
True beauty begins with honest materials.
We value natural character, genuine materials, and finishes that feel authentic

02 — CRAFTSMANSHIP
The human touch makes the difference.
Skill, technique, and attention to detail transform material into character

03 — QUALITY
No detail is too small.
From material selection to final application, quality guides every step

04 — INNOVATION
Tradition inspires. Innovation evolves.
We explore new textures, techniques, and possibilities for contemporary architecture

05 — PARTNERSHIP
Great spaces are created together.
We work alongside architects, designers, consultants, and clients to bring ideas to life

IMPERFECTION IS NOT A FLAW.
IT IS CHARACTER

MATERIALS HAVE A SOUL

NO TWO SURFACES ARE EVER THE SAME.

Natural materials are defined by variation.

The movement of the hand, the character of the material, and the way light meets the surface make every handcrafted finish unique.

At **Terra**, we don't seek perfect repetition.

We celebrate individuality

THE BEAUTY OF LIME

TIMELESS BY NATURE.

For centuries, lime has shaped some of the world's most enduring architectural surfaces.

Natural, expressive, and rich in character, it creates finishes with subtle movement, depth, and a beauty that evolves with light.

At Terra, lime represents the perfect connection between heritage and contemporary design.

Ancient in origin. Timeless in expression

WHY LIME?

NATURAL PERFORMANCE.
TIMELESS BEAUTY.

Lime is more than a beautiful finish.

Its natural properties make it a strong choice for healthy, durable, and sustainable interiors.

WHY IT MATTERS

BREATHABLE
Helps moisture evaporate and supports healthier walls.

NATURALLY ANTIMICROBIAL
Its high pH helps inhibit mould and bacteria.

LOW VOC
Stucco Italiano states VOC content is close to zero across its products.

MOULD RESISTANT
Its breathable and alkaline nature helps reduce conditions that favour mould growth.

SUSTAINABLE
Mineral plaster ranges include natural ingredients, and some formulations incorporate recovered materials.

BEAUTIFUL WITH TIME
Lime develops subtle depth, texture, and patina as it ages.

Heritage Lime

FACTS
LIME + MARBLE
at the heart of the collection
< 2.5%
synthetic additives*
VOC ≈ ZERO
across the referenced lime-based line

Rooted in Italian artistic heritage, mineral plasters bring together traditional materials such as lime and marble with contemporary techniques.

Their natural elegance, durability, and wide range of textures make them suitable for diverse architectural applications—from private residences to high-traffic spaces.
Natural materials. Contemporary expression

VENETIAN PLASTERS

FROM POLISHED BRILLIANCE TO SUBTLE ELEGANCE.

A celebration of lime and marble, Venetian Plasters offer a wide spectrum of expressions.

From highly polished surfaces with expressive trowel movement to soft, satin Marmorino finishes, each application reveals a different character through texture, movement, and light.

One tradition. Many expressions

INNOVATIVE LIME

TRADITION EVOLVED FOR TODAY.

Innovative Lime explores a contemporary expression of traditional lime finishes.

The collection offers diverse, robust, expressive, and versatile solutions, including materials specifically designed to withstand extreme climates.

It brings the natural character of lime into a new generation of architectural surfaces.

Natural heritage. Contemporary performance

PRECIOUS LIME

TEXTURE WITH A PRECIOUS TOUCH.

Precious Lime explores decorative plasters enriched with precious ingredients such as mica.

These textured finishes can evoke the sophisticated appearance of luxurious materials such as silk and velvet, as well as the natural character of real stone surfaces

HERITAGE LIME

TRADITION, REFINED FOR TODAY.

Heritage Lime brings traditional decorative plaster techniques into contemporary spaces.

The collection includes finishes such as Travertino, Intonachino, Scagliola, and Moroccan Tadelakt, enhanced to provide superior performance and easier application.

It preserves the visual character of traditional craftsmanship while adapting it to the needs of modern projects.

Rooted in heritage. Refined for today

DECORATIVE PAINT

DECORATIVE PAINT

WALLS

INTERIOR

BEYOND COLOR.
INTO EXPRESSION.

Contemporary wall finishes bring style and elegance to interiors while offering flexibility in application.

Applied by brush, spray, or trowel, these finishes combine lime or acrylic binders with diverse materials such as powdered metals, glass microspheres, marble, and pearlescent mica, opening a wide spectrum of creative possibilities.

Designed for versatility, they can express different identities—from modern and vintage to artistic, delicate, precious, or bold.

Their simplicity of application and decorative versatility give designers greater freedom to create surfaces where style, imagination, and functionality come together.

MINERAL

TACTILE BEAUTY.
DISTINCTIVE EFFECTS.

Mineral finishes combine innovative decorative expressions with captivating lustrous effects and tactile textures reminiscent of luxurious silks.

The collection can also incorporate real metals, creating a spectrum of surface effects ranging from polished to oxidised.

Texture you can see. Character you can feel

MATT

SOFT BY NATURE.
WARM BY DESIGN.

Matt finishes create soft, charming surfaces with a distinctive velvety tactile effect.

Designed in line with contemporary architectural trends, these finishes help create interiors that evoke a sense of warmth and well-being.

Quiet in appearance. Rich in feeling

ART & STYLE

CREATIVITY WITHOUT LIMITS.

Art & Style is a product line created for ambitious projects, giving designers the freedom to push creative boundaries and transform their most audacious ideas into reality.

It is about moving beyond conventional surfaces and using walls as a medium for creative expression and distinctive design.

Imagine boldly. Create differently

TURN
THE
WALL
INTO
ART.

LIQUID METAL

LIQUID METAL

WALLS

INTERIOR

Real metal.
Reimagined as a surface.

A cold-applied decorative metal coating designed to transform walls, furniture and architectural elements into genuine metallic surfaces.

Its versatility allows metal finishes to be shaped, textured and customised across complex forms and bespoke details — creating surfaces with the depth, character and visual presence of real metal

FLOOR COATING

FLOOR COATING

INTERIOR

FLOORS

SEAMLESS SURFACES.
NATURAL CHARACTER.

Our mineral-based floor coatings create seamless surfaces defined by elegance, minimalism, and uninterrupted continuity.

Inspired by the Italian tradition of Pastellone and Terrazzo, the collection combines natural mineral compositions with contemporary performance.

Different aggregates can be introduced to create unique visual expressions — from marble and glass chips to mother-of-pearl fragments and mica flakes.

Continuous by design. Distinctive by nature

FURNITURE FINISHES

FURNITURE FINISHES

INTERIOR

MODERN CRAFTSMANSHIP.
BEYOND WALLS.

Decorative plasters move beyond walls to transform furniture into distinctive design pieces.

Applied to furniture surfaces, these finishes add tactile and visual richness, creating new possibilities for contemporary interiors.

They can recreate the appearance of heavier materials such as stone or concrete, while maintaining the lightweight functionality of substrates such as wood or plywood.

Ideal for doors, tables, drawers, desks, and custom furniture, they offer a broad range of aesthetic possibilities for different interior styles.

From functional object to design statement

FURNITURE COATING SYSTEM

FROM CHALLENGE TO SOLUTION.

Applying decorative plasters to furniture requires more than a beautiful finish. Different substrates, movement, moisture, adhesion, edges, and everyday use can affect long-term performance.

A specialised coating system addresses these challenges through a complete application process:

01 — PRIMER
Creates a strong bond between the plaster and substrate.

02 — FLEXIBLE BASE
Adapts to the natural movement of wood, helping reduce cracking.

03 — DECORATIVE FINISH
Selected finishes can recreate expressions inspired by stone, terrazzo and marble.

04 — PROTECTION
Final protective treatments are selected according to the surface, use, and required performance.

BEAUTY IS THE FINISH.
PERFORMANCE STARTS BENEATH IT

GLOBAL CRAFT REGIONAL EXPERTISE

Terra is built on the combined experience of established regional partners and the heritage of Italian decorative craftsmanship.

ASFY — UAE
Experience in gypsum works and interior solutions.

ROME GLOBAL — SAUDI ARABIA
Regional experience in decorative finishes and premium surface solutions.

STUCCO ITALIANO — ITALY
A heritage of Italian decorative finishes rooted in lime, marble, and artisanal craftsmanship.

LOGGIA — ITALY
Expertise in decorative coatings, textures, and innovative surface solutions.

SABER — ITALY
Italian expertise in decorative and technical coating systems.

COLORIFICIO VENETO — ITALY
Italian craftsmanship in lime-based finishes, mineral coatings, and decorative surfaces.

LET'S CREATE TOGETHER SOMETHING REMARKABLE

Whether you are designing a residence, hospitality destination, retail space, workplace, or a unique architectural concept, Terra is ready to help turn the vision into a surface
